### EUBREAST-01 trial

*“Omission of sentinel lymph node biopsy in triple-negative and HER2-positive breast cancer patients with radiologic and pathologic complete response in the breast after neoadjuvant systemic therapy: a single-arm, prospective surgical trial.”*

### Strategy for the determination of recruitment figures

How many patients with primary breast cancer have you seen in your institution in <b>2018</b> ?	
How many of these patients have you treated in the neoadjuvant setting ( <b>2018</b> )?	
How many of your patients would approximately agree to participate in the above named surgical trial <b>per year</b> ?	
How many patients will approximately be recruited during the entire trial (planned recruitment period <b>2 years</b> )?	

Are there any other ongoing clinical trials / projects competing for the same patients?

yes (If yes: How will this affect recruitment for the EUBREAST-01 trial?)

no

### Commitment to participate

I hereby agree to participate in the above-named clinical trial and support the trial by recruiting patients.
